Secondary Level Schooling (SSLC)

### SUMMARY

Full-Stack Developer with hands-on experience developing dynamic web applications such as blogs, e-commerce platforms, and CRM systems with quotation and invoice modules. Proficient in **React.js**, **JavaScript**, and **PHP**, **MySQL** with a strong understanding of frontend development and responsive UI design. Well-versed in MySQL database management, secure backend logic, and API integration. Passionate about creating user-friendly interfaces and solving real-world problems through end-to-end web solutions.

### EXPERIENCE

#### Ecommerce Website

- Developed the user interface of an e-commerce website using **React.js** and **Tailwind CSS**.
- Built reusable, **responsive** UI components that adapt to mobile, tablet, and desktop screens.
- Applied component-based architecture to improve code reusability and maintainability.
- Improved user experience with clean layouts, smooth interactions, and fast loading components.

#### Dynamic Ecommerce Website

- Developed a **full-stack e-commerce** site using **PHP**, JavaScript, HTML, and CSS
- **Admin** panel with product/category masters, orders, coupons, and dashboard reports
- Implemented shopping cart, checkout flow, and user account system
- Used **jQuery** & **AJAX** for cart updates and applying coupons without page reload
- Structured **MySQL** database with product, user, and order relationships
- Integrated secure login, session handling, and authentication logic

### Portfolio

[Madhankumarvportfolio](#)

- Showcased my projects and personal brand through a portfolio website.
- Managed React components and implemented functionality using JavaScript, emphasizing state management, hooks, and React Router.
- Styled the website with Tailwind CSS and integrated a message-sending feature for user interaction. Ensured full responsiveness, providing a seamless user experience across all devices.
